

Global Visionaries empowers young people to become global leaders in creating a just and sustainable future.

About Global Visionaries:

Global Visionaries invites youth from diverse socio-economic, racial, and ethnic backgrounds to be active leaders in their local and global communities. We foster leadership skills grounded in environmental and social justice. We serve over 200 students from the US and 100 students from Guatemala annually. Through youth-led discussions, workshops, service projects, and immersions in Guatemala, our participants report a new capacity to be agents of change.
